PATENT APPLICATION NUMBER- 087106014.O/CN

DATE FILED- 1987-09-02

PATENT DATE- 1989-03-15

DOCUMENT TYPE- PATENT

PATENT CLASS- D21H

LANGUAGE- CHINESE

Iodophor is a broad-spectrum bactericide and sterilizing agent that erodes ordinary paper substrates. This Chinese patent describes the manufacture of nonwoven fabrics of PP fibers that can absorb Iodophor without deteriorating and consequently be stored for a long time. This product has potential uses in hospitals, homes, restaurants, etc., particularly as a preventive measure against beta-hepatitis.
